

Neon Intranet Platform

Business Transformation in the Digital Age

When companies embark on their digital transformation journeys, they soon realize that improving their organizational processes is a crucial step to keep up with the modernization of business operations. Forward-thinking leaders admit that their employees are the most valuable asset with an impact on business performance, so they focus on developing an adaptive culture and using new technologies at work. These efforts allow to motivate the personnel in turbulent times and adopt the wide-spread post-pandemic workplace trends, such as work-from-home or hybrid models. To manage both office and remote employees, while supporting their purpose-driven engagement, companies need modern tools boosting the digital employee experience.

Employee Experience Management

Nexign offers Neon Intranet Platform as an all-in-one solution to create a corporate digital ecosystem with a centralized information hub, streamlined communications and talent management. Designed with the employee-centric approach in mind, Neon keeps employees engaged in the brand values and encourages their contribution to business growth.

Neon provides a single access point to internal services and information about everything happening in the company. The employees stay informed on personal and corporate activities as well as share knowledge with coworkers, while the HR and communications departments effortlessly tackle employee lifecycle issues and maintain motivation.

Increased engagement:

85%

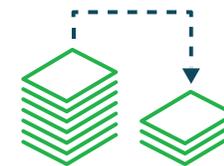

of employees use the corporate services daily

Improved brand loyalty:

90%
